"My household income is less than £16,105 could I get a reduction?"

"If your water bill is 3% or more of your net income you may be entitled to up to 50% off."

"You are working outside my property to maintain water pipes but I am worried I will not have access to and from my home."

"We can work with you to make sure that our maintenance work is completed and you have the access to your home that you need."

"My household income is not enough to pay my essential bills."

"We may be able to help you by reducing your current charges by up to 50%."

"I'm so far behind with my payments I'll never be able to pay it back."

"We have a number of different instalment options for you and may even be able to write part of your debt off."

"I'm thinking about having a water meter but I am not too sure if it will save me money?"

"Our advisors have up to date comparison information to see if you can save money. They are free to install too."

"I am using so much water as I have a big family."

"With our WaterSure scheme, we may be able to cap your water bills and guarantee that you will not pay more than a set amount."

"My supply has gone off but I am unable to go out to get bottled water."

"In the event of a water supply interruption we can arrange for bottled water to be delivered to your door."

"I am on benefits and struggling to budget."

"We can make deductions directly from your benefit to pay for your water."

"My partner has an illness that means we use so much more water than usual."

"You may qualify for a capped water bill every year that promises to bill you a set amount."
