

Indicative wholesale access charges for 2017-18

Northumbrian Water Limited (NWL)

Indicative wholesale access charges for 2017-18

NWL supplies water in the Northumbrian Water (NW) region and in parts of Essex and Suffolk, which are known as Essex & Suffolk Water (ESW).

Ofwat published IN16-02 in March 2016. This set out new requirements for companies to publish indicative wholesale access charges by October 2016. The charges contained in this document therefore represent the charges we expect to set for 2017-18 subject to any unforseen significant changes in assumptions.

Prices in the NW and ESW regions are different and are shown on separate tabs. The structure of water tariffs in the two regions are the same.

NWL supplies sewerage in the NW region only.

Information shown in this document is published on an indicative basis for information only, and the final publication of charges in January 2017 may be different.

Schedule for measured wholesale water supply

Standard charges company comments

Note 1: The focusplus super large user price will no longer be available from 2017/18, as stated our July Statement of Significant Changes. Volumes will be charged at the focus plus volumetric rate.

Note 2: The volume cut over between the focus extra and focus plus tariffs is at 165ML pa. It is not visible on the standard template but will be clear in our charges scheme.

Company comments

Note 1 : Properties charged on the Assessed Tariff are charged an assessed band for their foul charges, as shown in the foul only column. Surface water and highway drainage are charged on the same basis as the measured tariffs (see the measured sheet).

Special Agreement Information

General Notes:

Information on this sheet should be read in conjunction with the NWL published special agreements register. Prices shown are wholesale charges.

All prices stated on this sheet are defined under specific agreements with individual customers, and will be applicable to specific premises (SPIDs) and not available generally. The intention is to charge for these agreements via the Central Market Operating System (CMOS).

Table 1a: Potable Water

Reference number of customer to whom potable water services is provided	Volumetric charge (£/m3) 2017-18	Standing charge (£) 2017-18	Notes
NESPOT02	0.0000	0.00	Historic allowance for up to 227m3 per year of free
NESPOT03	0.0000	0.00	Historic allowance for up to 227m3 per year of free
