Main size		Length of main	
Main size		Length of main	
Main size		Length of main	
Main size		Length of main	

I confirm that trenches will be excavated as shown on the drawing number above and that we require the above sections of main to be constructed. I understand that I will be contacted within four to six weeks by the mains construction team to organise a date for the work to commence. I accept that Northumbrian Water may recover its additional costs from my organisation if the work cannot be carried out as a result of my organisation's actions/inactions affecting the planned work.

Signature	
Print name	
Date	

Once the main has been constructed, Northumbrian Water will take samples to ensure the water within the main is of a satisfactory quality. Service connections from these mains can only be requested once the required water quality standards have been achieved.
