

DWMP Drainage Community Summary Ramshaw

 Properties at Risk of Flooding Internally	2020 0	 Storm overflows spilling to Rivers	0	 Storm overflows spilling to Bathing Waters	0	 Manholes at Risk of Pollution	0	 Number of spills to the Environment	2020 0	
	2045 0	 Site of Special Scientific Interest	No	 Strategic Area of Conservation	No	 Strategic Area for Ecology	No		2045 0	
	Post Investment 0								Post Investment 0	

Opportunities

- 3rd Party Stakeholder
- WINEP Programme
- Storm Overflow Programme
- Blue Green Corridor
- Storm Overflow Removal
- Drainage Communities

This is drainage community reference DC_01 which is within the Ramshaw area.

The drainage community is classified as low priority based upon it containing a river water asset discharging to an area without environmental concerns.

The DWMP recommends that no investment is required due to the performance of the storm overflow and level of internal property flood risk in the catchment. The catchment will be monitored for future change.

The application of growth in the catchment has shown that no investment is required at the sewage treatment works.

-  Storm Overflow Removal
-  Drainage Communities

This is drainage community reference DC_02 which is within the Ramshaw area.

The drainage community is classified as low priority based upon it containing a river water asset discharging to an area without environmental concerns.

The DWMP recommends that storage at the storm overflow(s) and storage in the catchment is created to manage and improve spill and flooding performance.

The application of growth in the catchment has shown that no investment is required at the sewage treatment works.
