

**Indicative primary wholesale charges
for 2023/2024**

Northumbrian Water Limited (NWL)

Indicative primary wholesale charges for 2023/24

Ofwat published its Wholesale Charging rules under section 66E and 117I of the Water Industry Act 1991, which sets out requirements to publish indicative primary wholesale charges for 2023/24.

NWL supplies water services in the Northumbrian Water (NW) region and in parts of Essex and Suffolk, which are known as Essex & Suffolk Water (ESW).

Prices in the NW and ESW regions are different and are shown on separate tabs. The structure of water tariffs in the two regions are the same.

NWL also supplies sewerage services in the NW region only.

Our Account Managers will be in touch soon to provide the indicative charges in an Excel file with the associated CMOS tariff codes.

Information shown in this document is published on an indicative basis for information only, and the final publication of charges in January 2023 may be different.

Standard charges

Non-potable charges company comments

Note 2: Non-potable charges are only available for supplies from the Teesside Industrial Raw Water System.

Note 3 : Non-potable charges are in addition to potable charges where a site is supplied both potable and non-potable water

Note 4: Our meter charges are determined in the following ranges:

0-24 mm
 25-34 mm
 35-39 mm
 40-49 mm
 50-64 mm
 65+ mm

Company comments

Note 1 : Properties charged on the Assessed Tariff are charged an assessed band for their foul charges, as shown in the foul only column. Surface water and highway drainage are charged on the same basis as the measured tariffs (see the measured sheet).

Standard components	<0.5 MI	0.5-5MI	5-25MI	25-50MI	50-100MI	100-250MI	>250MI	Other large user charge
