

Indicative primary wholesale charges for 2027/2028

Northumbrian Water Limited (NWL)

Indicative primary wholesale charges for 2027/28

Ofwat published its Wholesale Charging rules under section 66E and 117I of the Water Industry Act 1991, which sets out requirements to publish indicative primary wholesale charges for 2027/28.

NWL supplies water services in the Northumbrian Water (NW) region and in parts of Essex and Suffolk, which are known as Essex & Suffolk Water (ESW).

Prices in the NW and ESW regions are different and are shown separately. The structure of water tariffs in the two regions are the same.

NWL also supplies sewerage services in the NW region only.

Our Account Managers will be in touch soon to provide the indicative charges in an Excel file with the associated CMOS tariff codes.

Information shown in this document is published on an indicative basis for information only, and the final publication of charges in January 2027 may be different.

Simplification and harmonisation of metered consumption bands

In accordance with the RWG Good Practice Guide we have changed our metered volumetric consumption bands to align with the proposed bandings across the market.
